Conference themes

In an era of rapid technological advancement and cultural diversity, the healthcare landscape is evolving at an unprecedented pace. Nurses, at the forefront of patient care, are invited to embark on a transformative journey at the “Embracing Changes in Transcultural Nursing: From Basics to Cyborgs” conference. This groundbreaking event is set to redefine the future of nursing by blending the fundamentals of transcultural care with the cutting-edge world of cyborg technology.

We invite papers on the themes of (but not limited to):

- The intersection of nursing and technology: nursing practices, nursing research, nursing education.
- Advancements in robotics, artificial intelligence, and augmented reality and how they are shaping the future of patient care.
- Revisiting core tenets of transcultural nursing and identifying how they apply to modern healthcare systems.
- Present creative ideas for the advancement of cultural competence.
- Leveraging innovations like AI assistants, remote health monitoring, and other intelligent devices to promote culturally aware care and equity.
- The future of transcultural nursing in a technology-enabled landscape.
- Other [please specify in the abstract]
